

Deconstruction of The McDonald House

Approximately 80 percent of the materials will be put back into the stream of construction materials to be either reused or recycled.

Submitted by Michele Zukerberg, SPS Region

Bricks chipped of mortar ready for reuse.

Concrete bulkhead removal

Log bulkhead removal

Log bulkheads reused as course, woody debris

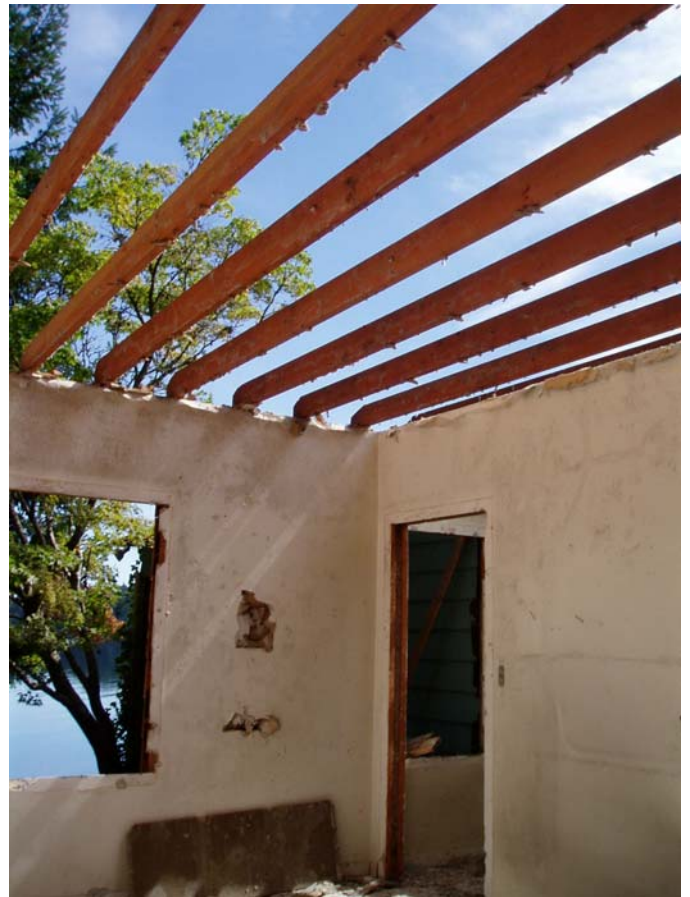

Lumber and metal stacked for reuse and recycle

Rock bulkhead removal

Staircase removed for reuse

Roof and windows removed for lumber and reuse

Walls remain after roof and flooring removed

Window weights stockpiled for recycle
